

# MaxiCharger DC Fast DC Charger

Experience the future of electric vehicle charging with the **MaxiCharger DC Fast**. This powerful charger redefines fast charging, providing unparalleled efficiency and reliability for EV owners and operators.

## Up to 240 kW of Fast Charging

Charge your EV faster and more efficiently than ever before, reducing wait times and getting you back on the road in no time.

## 265 km in 10 Minutes

Achieve up to 265 km of range in just 10 minutes with a maximum 400A output current, making your charging experience lightning fast.

## 30% Faster Charging with Boost Mode

Activate boost mode to improve charging speeds by up to 30%, ensuring you spend less time at the charging station.

## Smart Advertising and Communication Portal

### Comprehensive Charging Info

Access essential charging-related information such as State of Charge (SOC), cost, and kWh usage.

### Revenue-Boosting Display

Maximize your revenue potential with integrated advertisements that capture the attention of customers during their charging sessions.

### Engage and Attract Customers

Use the portal to communicate, promote, and attract customers, creating new revenue streams.

# Advanced Features

## Comprehensive Safety Monitoring

With 21 safety monitoring items, we prioritize safety during every charging session.

## Smart Cloud Portal & OCPP Capability

Enjoy remote updates and diagnostics, smart charging capabilities, and plug-and-charge convenience.

## 96% Charging Efficiency

Our charger is designed for efficiency, saving time, energy, and costs.

## Customizable Hardware & Software

Tailor the charger to your specific needs with flexible customization options.

## Compatibility

Support for CCS2, CCS2 Boost, or CHAdeMO, as well as various payment methods such as apps, RFID cards, credit cards, and mobile payments.

## Highly Reliable

- Interoperability Testing: We continually test and evaluate new vehicles for seamless interoperability.
- IEC Standards Compatibility: MaxiCharger is compatible with all vehicles adhering to IEC standards, ensuring wide-ranging support.
- Industry-Leading Success Rate: Benefit from a charging success rate higher than the industry average.
